## About Me

A detail-oriented and quality-driven Full-Stack Developer with experience in both web and mobile app development. Passionate about building efficient, scalable, and user-friendly applications. Strong problem-solving skills and a commitment to delivering high-quality work. Always eager to learn and adapt to new technologies to create innovative solutions.

## Skills

- HTML & CSS
- JavaScript & TypeScript
- ReactJS & React Native
- NodeJS & NestJS
- Git Version Control
- Tailwind CSS

## Education

- **Bachelor of Computer Science**  
*University of The People* 2024  
I hold a Bachelor's in Computer Science, where I gained expertise in programming, algorithms, data structures, and software development. I am proficient in multiple programming languages, with exposure to database management, network security, and software engineering principles. This foundation supports roles in software and app development.
- **GDPR Data Privacy Certification**  
*TechGDPR* 2023  
Demonstrated expertise in data protection principles, compliance requirements, and best practices under the General Data Protection Regulation (GDPR). Gained knowledge of handling personal data securely, ensuring regulatory compliance, and implementing privacy-focused solutions in development.

## Experience

- **Front-End Developer**  
*CapraTech (Hong Kong - Hybrid)* 2024 - Present  
Develop and maintain web and mobile applications using React.js, React Native, and Tailwind CSS. Utilize state management tools like Redux to manage application state efficiently. Collaborate closely with designers to translate UI/UX designs into responsive, high-quality user interfaces. Work as part of a cross-functional team to ensure seamless integration, performance optimization, and a smooth user experience. Contribute to code reviews, troubleshoot issues, and continuously improve development workflows.
- **Full-Stack Developer**  
*Focus Bear (Australia - Remote)* 2022 - 2024  
Developed frontend applications using React.js and Tailwind CSS while also working on backend API development with NestJS and SQL. Gained hands-on experience with AWS services and utilized Git for version control, collaborating efficiently with team members. Played a key role in onboarding and instructing new hires, ensuring a smooth transition into the team. Thrived in a fast-paced startup environment, adapting quickly to evolving project requirements and delivering high-quality solutions.
