Profile

I'm an enthusiastic, curiosity-driven, and hard working web developer. Currently completing a Computer Science degree online and simultaneously teaching myself web development. I am looking to join a team that I can learn from, but also open for freelancing services.

Skills

Hard Skills

HTML

CSS

JavaScript

ReactJS

Redux

Figma

Git

Soft Skills

Organization

Teamwork

Adaptability

Problem Solving

Education

2020 - Present

Bachelor of Computer Science
University of The People - USA

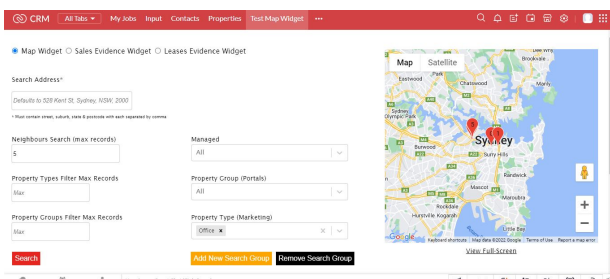

Currently 60% complete with the degree programme, and have completed courses such as databases, computer systems, mobile applications, and web programming.

Work Experience

2021 - Present: Freelancing

I have completed multiple jobs for small businesses and worked with development teams, giving me experiences ranging from creating wireframes, to deploying web-based applications.

Example

ZOHO CRM Map Widget

- Brought on changes using TS and CSS
- Version control using Git
- Deployment
